Skywind will upload the game with the default Coin Bet values shown here (the coin marked **yellow** is the default selected coin bet for all players as they enter the game for the very first time).

Please contact the Skywind support team if you want to make changes in the Coin values.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Partner Manager for further assistance in understanding and configuring game limits and updates of coin values.
