CAT SYMBOL

The Cat symbol is the ultimate feature key in Extreme Paw™, acting as the primary driver for all real-time modifier rounds (Extreme features).

It can land exclusively on reel 3 during the base game, and on any reel during the Hold & Slide or Wild Free Games features.

Landing the Cat symbol instantly unleashes a **unique Extreme Feature** tailored specifically to your current game mode:

- **Base Game:** Triggers the vertical Extreme Climb feature.
- **Hold & Slide Feature:** Triggers the high-stakes Extreme Slide feature.
- **Wild Free Games Feature:** Triggers the high-velocity Extreme Wild feature.

This dynamic symbol bridges the gap between different game phases, turning any standard spin into an escalating chase for massive rewards.

KEY SYMBOLS

WILDS & EXPANDING WILDS

The Wild symbol in Extreme Paw™ is the ultimate win multiplier and reel dominator. It substitutes for all regular symbols except for the Scatter, Cat, and Medal symbols.

During the base game, Wilds can land with random multiplier values ranging from x2 up to x500. If multiple Wild multipliers participate in a single winning combination, their values are accumulated together to deliver massive payouts.

Any landed single Wild has the potential to randomly expand, completely covering the entire reel to maximize your payline coverage.

During Wild Free Games and Climb Free Games, all Wild and Expanded Wild symbols become **sticky**, shifting to new random positions at the start of each spin until the feature concludes.

MYSTERY WILDS

Mystery Wilds are premium bonus elements discovered and collected exclusively along the real-time paths of the **Extreme Climb** and **Extreme Wild** features.

Once successfully secured and carried over into the subsequent Climb Free Games or Wild Free Games, these mysterious symbols reveal their true power before the first spin even begins:

- **Instant Reel Transformation:** Any secured Mystery Wilds are immediately placed onto the grid, transforming directly into powerful single or fully expanded Wild symbols.
- **Sticky Shifting Mechanics:** Once revealed, they lock onto the reels to become sticky for the entirety of the free games session, shifting to new random positions at the start of every spin.
- **Maximized Payline Coverage:** Maximized Payline Coverage: By injecting persistent wild power onto the grid, they dramatically increase your coverage across all 18 paylines, paving the way toward the massive 20,000x Max Win cap.

KEY SYMBOLS

SCATTER

The Scatter symbol is your key to unlocking the game's premium free spin action.

Landing 3 Scatter symbols anywhere on reels 1, 3, and 5 during the base game instantly awards **8 Wild Free Games**.

The Scatter symbol appears exclusively during the base game to trigger the bonus, keeping the main game gameplay focused and highly rewarding.

KEY SYMBOLS

MEDAL SYMBOLS

There are 3 distinct tiers of Medal symbols in Extreme Paw™, each offering escalating instant-cash prize potentials. They appear across the Base Game, Hold & Slide, and Climb Free Games features.

- **Bronze Medals:** Offer prize values of 1x, 2x, or 3x the base bet.
- **Silver Medals:** Offer prize values of 5x, 8x, 10x, or 15x the base bet.
- **Gold Medals:** Deliver premium prize values ranging from 25x all the way up to an incredible 5000x the base bet.

Landing 3 or more Medal symbols of any type during the base game activates the Hold & Slide feature.

While Medals do not pay out instantly in the base game, they lock firmly on screen during Hold & Slide to build up your final reward pool.

During Extreme features, Medal prizes are gathered along the real-time paths to build up your bounty.

In the Climb Free Games bonus, they land on the reels to pay out their displayed cash values instantly at the end of each spin.

MULTIPLIER SYMBOL

The Multiplier is a high-potency modifier (x2 to x500) designed to drastically amplify payout velocity across the game's core features:

- **Hold & Slide & Extreme Slide:** Adds directly to a permanent Total Multiplier counter—either accumulated from the reels during respins or transferred from the snowy mountain path upon a successful collection.
- **Extreme Climb & Climb Free Games:** Gathered along the vertical rockface path. All successfully secured multipliers are permanently applied to every winning payline combination throughout the subsequent Free Games session.
- **Extreme Wild & Wild Free Games:** Collected along the high-speed desert path and instantly applied to the remaining Free Games to heavily boost all upcoming sticky shifting wild payouts.

GAME FEATURES

MAIN GAME

The main game of Extreme Paw™ features a high-action, 18-payline grid where every spin delivers extreme volatility and massive win potential.

Players can land big line wins powered by random Wild multipliers from x2 up to x500 that accumulate together or randomly expand to cover entire reels.

The base game serves as the ultimate launching pad for the game's premium feature ecosystem. Watch for 3 Scatters to enter Wild Free Games, 3 or more Medals to unlock the Hold & Slide bonus, or the Cat symbol on reel 3 to trigger the vertical Extreme Climb feature.

EXTREME CLIMB

Landing the Cat symbol on reel 3 during the base game immediately triggers the vertical, real-time Extreme Climb feature.

Players press the PLAY button to watch Mr. Paw scale a treacherous rock face, automatically collecting multipliers, Extra Free Games, cash Medal prizes, and Mystery Wilds up to a maximum of 15 elements.

As the cat advances past the start line, the stakes escalate. You must press the **COLLECT** button to secure your accumulated bounty before a sudden fall concludes the climb.

Regardless of whether prizes are successfully collected or a fall occurs, the session flows seamlessly into the subsequent Climb Free Games feature, fueled by any rewards safely secured during the climb.

GAME FEATURES

CLIMB FREE GAMES

The Climb Free Games feature triggers immediately after the Extreme Climb feature concludes, starting with 5 initial Free Games plus any extra games secured on the cliff.

All collected multipliers are permanently applied to every subsequent win throughout the session.

Any secured mystery wilds are placed on the reels before the first spin, turning into sticky, shifting single or expanded Wilds that move to new positions on every free game.

Adding to the excitement, Bronze, Silver, and Gold Medal symbols land on any reel during this bonus, paying their displayed cash values instantly at the end of each Free Game spin.

GAME FEATURES

HOLD & SLIDE BONUS

Landing 3 or more Medal symbols of any type (Bronze, Silver, or Gold) anywhere on the reels trigger the thrilling Hold & Slide Bonus.

The triggering Medal symbols lock firmly into place, all other reel positions are cleared, and 3 initial respins are awarded. Each cell spins independently, allowing only Medals, Multipliers, and Cat symbols to land.

Landing any new Medal symbol locks it in place and immediately resets the main respin counter back to 3.

Multiplier symbols add their values directly to a permanent Total Multiplier counter at the end of each respin.

The feature concludes when no respins remain or the entire grid is covered. At the end, the sum of all locked prizes is multiplied by your accumulated Total Multiplier for an explosive final payout.

EXTREME SLIDE

The Extreme Slide feature is triggered when the Cat symbol lands on the grid during the Hold & Slide bonus feature.

Mr. Paw shreds down a snowy mountain in real time, gathering instant-cash Medal prizes, multipliers, and extra respins along the path up to a maximum of 15 prizes.

Players must hit the **COLLECT** button to claim all gathered rewards before a sudden fall finishes the run.

Successfully securing your prizes powers up the remaining Hold & Slide feature:

- The triggering Cat symbol transforms into a locked Medal displaying your total won prize.
- Collected multipliers are added to the Total Multiplier field.
- Extra respins are added to your counter.

GAME FEATURES

WILD FREE GAMES

The Wild Free Games feature is triggered by landing 3 Scatter symbols during the base game, initially awarding 8 Free Games.

During this feature, base spins trigger an interactive wild mechanic naturally on the reels:

- **Shifting Wilds:** Single or expanded Wilds that land lock onto the grid to become sticky, then shift to a new random position at the start of every subsequent spin.

Triggering the Extreme Wild feature dynamically upgrades the session by injecting powerful bonus elements directly into your remaining spins:

- **Mystery Wilds:** Adds additional sticky, shifting Wilds to the reels to maximize your winning payline coverage.
- **Massive Multipliers:** Injects high-value multiplier values into the round to heavily amplify all remaining payouts.
- **Extra Free Games:** Adds extra spins straight to your counter to extend the high-octane action.

EXTREME WILD

The Extreme Wild feature is activated instantly when a Cat symbol lands anywhere on the reels during Wild Free Games.

Mr. Paw takes to the desert on a high-speed motorcycle ride, collecting Multipliers, Extra Free Games, and Mystery Wilds along a real-time path.

The feature allows the cat to gather a maximum of 10 prize elements as the tension builds with every step.

The choice is entirely in your hands: hit the **COLLECT** button to safely secure your gathered rewards, or push further down the path before a sudden fall concludes the run.

All successfully collected prizes are instantly applied to the remaining Wild Free Games, introducing sticky shifting wilds and amplified multipliers to the reels.

BUY IN FEATURE

The Buy In feature gives players instant access to the game's most powerful bonus rounds directly from the base game menu.

Clicking the Buy In button presents 3 premium payment options calculated relative to the player's current base bet:

- **Climb Free Games (50x bet):** Guarantees a spin that lands the Cat symbol on reel 3 to trigger Extreme Climb and 5 Climb Free Games.
- **Hold & Slide (70x bet):** Guarantees a spin that awards 3 or more Medal symbols to trigger the Hold & Slide bonus.
- **Wild Free Games (80x bet):** Guarantees a spin that lands 3 Scatter symbols to trigger 8 Wild Free Games.

This feature is available exclusively during the main game between regular spins.

GAME FEATURES

DOUBLE CHANCE FEATURE

The Double Chance feature allows players to significantly increase their odds of naturally triggering the game's core features from the base game.

Activating the feature adds a total of 50% extra on top of the player's current base bet.

While active, the feature doubles the chances of triggering the Hold & Slide bonus, the Wild Free Games feature, or the Extreme Climb feature.

Double Chance remains active across spins and can be toggled on or off exclusively within the base game menu.

The feature is initially turned off as a default.
