The Wild symbol

may appear on reels 2, 3, 4 during the main game and Free Games.

The Wild symbol

substitutes for all symbols except for the expanding symbols.

has its own payouts, see Paytable.

3 Wild symbols

appearing on reels 2, 3, 4 trigger the Free Games feature.

The Wild symbol transforms into an opened book

and reveals the special symbol for the Free Games round.

Game Features

Megaways® Feature

The Megaways® feature provides up to 3125 ways to win.

The overall number of possible ways to win for a spin is calculated by multiplying together the number of landing symbols on each reel. Only the highest win pays on each way.

If there are symbols occupying several positions, the number of ways to win for this spin will be fewer than in the case when each landing symbol occupies just one position.

Ways wins pay in any position from left to right on adjacent reels, beginning with the leftmost reel. When the special symbol is expanding during the Free Games feature ways to win also pay on non-adjacent reels.

Free Games Feature

The Free Games feature is triggered by 3 Wild symbols landing on reels 2, 3 or 4 during the main game round.

During the Free Games feature the player gets 10 free spins.

Before feature starts the Book of Gems reveals the special symbol. Special symbols pay according to the payable and wins may occur when the symbols land anywhere on the reels.

The special symbol becomes expanding if the minimum number of symbols required to create a win combination land on the reels (see Paytable). When the special symbol is expanded ways wins also paid on non-adjacent reels.

The Free Games feature may be retriggered infinitely.

Buy In Feature

The Buy In feature allows players to buy the Free Games feature immediately at the cost of 70x total bet.

To buy the Free Games feature the player needs to press the "Buy In Feature" button and make a single payment that guarantees the Free Games trigger.

The player can also choose the bet and see the cost of the Free Games trigger.

Then press the "Buy" button to pay and spin the reels for guaranteed 10 free games.

After purchasing the feature, all wins will be calculated the same as during regular spins.

The Buy In feature can be activated only during the main game.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet taken during simulation of 1,000,000,000 bets:

Highest win	13,059 x Total Bet
10th highest win	12,525 x Total Bet
100th highest win	8,084 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.

Please contact the Skywind support team if you want to make changes in the Coin values.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
