Business Case

- Wilds are stacked on all 5 reels in both the main game and the Free Games, creating more wins!
- Free Games contain more stacked Wilds and can be re-triggered indefinitely.
- Massive top prize of 1,000x the coin bet that every player would love to chase

Symbol Details

Wild Symbol

The Wild symbol appears stacked on all reels during both the main game and the Free Games round.

The Wild symbol substitutes for all symbols except Scatter.

Scatter Symbol

The Scatter symbol appears on reels 2, 3 and 4 only.

3 Scatter symbols on reels award 8 free games.

3 Scatter symbols on reels pay 3x the total bet.

Game Features

Free Games

The Free Games feature is triggered by 3 Scatter symbols that appear on reels 2, 3 and 4 during the main game, and award 8 free games.

During Free Games, more stacked Wild symbols appear on reels to boost the player's Free Games wins.

Moreover, 3 Scatter symbols landing on reels 2, 3 and 4 during the Free Game round will re-trigger the same number of free games.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet got during simulation of 1,000,000,000 bets:

Highest win	1,085 x Total Bet
10th highest win	1,022 x Total Bet
100th highest win	895 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
