Business Summary

It's raining balls on this exciting new reel and pin mashup. Multi-coloured clovers spin into the reels but it's the ones with shiny little balls sat in the center you want. If they land in a win line, the balls will drop off into the pin board below where there'll rattle around and hopefully land in a feature pot, triggering: Free Games, the Lucky Wheel, Wild Reel or Extra Balls.

The **Rain Balls** game runs on HTML5 and supports all screen resolutions up to full HD.

The Pinball Bonus

The Clover symbols of all colours can be of two types: with and without balls. Each winning Clover symbol with a ball on it will drop the ball into the pinball machine. Each ball landing inside a feature pot at the bottom of the machine will trigger that respective feature. The pots are reset after each spin. A player can win up to 4 features on a single spin.

There are 5 available pots at the bottom of the machine. Each pot has its own feature, except the empty one. Once a ball/ balls falls into any pot – the feature of the corresponding pot is triggered.

Wild Reel Pot

Free Games Pot

Lucky Wheel Pot

Empty Pot

It is possible to trigger all active features during one spin.

During the Free Games round the walls appear on two sides of the pinball machine and help the player to have a greater chance of all possible features trigger.

Wild Reel Feature

Once at least one ball falls into the Wild Reel Pot, the Wild Reel feature is triggered. Each additional ball falling into the same pot will increase the Expanding Wild multiplier by +1. Multiplier is equal to a number of balls collected in the Wild Reel Pot: two balls – x2 multiplier; three balls – x3 multiplier etc.

The feature is available during the main game and Free Games round.

Extra Balls Feature

A ball falling into the Extra Balls Pot triggers the Extra Balls feature. Once the feature is triggered, 3 balls will randomly fall from the top of the screen giving the player a chance to trigger more features in the current spin.

Once the feature has been triggered the extra balls pot changes to one of the following pots:

The number of falling balls depends on number of balls in the triggering pot, each ball awards 3 extra balls.

In case of multiple features trigger the extra balls will be played first. Balls can fall into feature pots or outside the screen.

The feature is available during the main game and Free Games round.

Once the feature is triggered, special walls appear on both sides of the pinball machine to block the balls from falling out of the screen and increase the chance of features trigger.

All the features from the main game are available during the Free Games round.

During Free Games round every ball falling into the Free Games Pot retrigger the feature by awarding with 2 additional free games.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet got during simulation of 1,000,000,000 bets:

Highest win	13,443 x Total Bet
10th highest win	5,923 x Total Bet
100th highest win	2,469 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.
