Business Summary

Dive beneath the waves to discover the bountiful prizes inside Ruby Pearl. This vibrant underwater slot has Stacked Wilds and Free Games with a Pick and Click mini game that boosts the feature. Pick the right pearls and you could get up to 40 free games or a x17 multiplier.

The **Ruby Pearl** game runs on HTML5 and supports all screen resolutions up to full HD.

	Low Wins	Medium Wins	High Wins																					
The table shows the relative RTP paid out by low, medium, and high wins in the game.																								

Business Case

- Stacked Wilds
- Pick and Click mini game
- Up to 40 Free Games
- Up to x17 Multiplier

Symbol Details

Wild Symbol

The Wild symbol

may appear on all reels during the main game and Free Games round.

The Wild symbol

substitutes for all symbols except for the Scatter.

Scatter Symbol

The Scatter symbol

may appear on all reels during the main game and Free Games round.

3, 4 or 5 Scatter symbols

on the reels during the main game trigger 8 free games with x2 multiplier with a chance to collect up to 40 free games or up to x17 multiplier.

3 or more Scatter symbols

on the reels during the Free Games round award additional 20 free games.

Game Features

Free Games Feature

The Free Games feature is triggered by 3 or more Scatter symbols landing anywhere on the reels during the main game, awarding 8 free games with x2 multiplier.

After the feature has been triggered, there is a Pick and Click mini game where the player chooses 3 out of 8 clams to reveal an additional 3, 5, 7, 10, 15 free games and/or x2, x5, x8 multipliers. The revealed prizes are added up and the Free Games session begins.

Only wins that occur with at least 1 Wild symbol on screen during the Free Games session are multiplied by the multiplier.

3 or more Scatter symbols landing anywhere on the reels during the Free Games round awards an additional 20 free games.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet got during simulation of 1,000,000,000 bets:

Highest win	10,140 x Total Bet
10th highest win	7,216 x Total Bet
100th highest win	4,861 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.

Default Coin Bet Values at Upload

Skywind will upload the game with the below default Coin Bet values (the coin marked in **bold** is the default selected coin bet for all players as they enter the game for the very first time):

Please contact the Skywind support team if you want to make changes in the Coin values.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
