Game Features

Mystery Switch Feature

The Mystery Switch feature is triggered by the Mystery symbol landing anywhere on the reels during the main game round.

Once the Mystery symbol has landed on the reels, it copies itself to a random number of consecutive positions in any direction. The Mystery symbol can cover from 3 up to 15 reel positions.

After that, all Mystery symbols will turn into random paying symbol on the same kind.

Lucky Wheel Feature

The Lucky Wheel feature is triggered by 1 or more Bonus symbols landing anywhere on the reels during the main game round.

The initial number of the awarded Lucky Wheel spins equals to the number of the triggering Bonus symbols.

Once the feature has been triggered, a wheel will appear on the screen. The Lucky Wheel consists of the following sections:

- 2x, 3x, 4x, 6x, 8x or 10x multipliers. Once a multiplier is won, it awards a cash prize that is a triggering bet multiplied by the corresponding multiplier value;
- Double All – doubles all multipliers on the wheel;
- +3 spins – awards 3 additional Lucky Wheel spins;
- +5 to all – adds an extra 5x to all multipliers on the wheel. The multipliers are summed up;
- ? – randomly awards one of the prizes above.

The wins are accumulated and the bet value is multiplied by all the awarded multipliers together.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet got during simulation of 1,000,000,000 bets:

Highest win	21,873 x Total Bet
10th highest win	4,962 x Total Bet
100th highest win	2,224 x Total Bet

It is highly undesirable to exceed the pre-set win capping values and game limits.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
