Business Case

- The Respin feature where the player can get consecutive wins
- Up to 100 free games

Symbol Details

Wild Symbol

The Wild symbol  substitutes for any other symbol except the Scatter symbol both in the main game and the free games round.

The Wild symbol  doesn't have any payouts of its own.

Scatter Symbol

5 or more Scatter symbols  anywhere on the reels trigger up to 100 free games.

The Scatter symbol  doesn't have any payouts of its own.

Game Features

Respin Feature

Any win in the main game or the free games round triggers the Respin Feature.

Once all wins are counted, any symbol that participated in any winning combination stays locked and the reels respin.

Free Games

When 5 Scatter symbols appear anywhere on the reels, the free games round is triggered.

The number of free games won depends on the number of Scatters that triggered the free games round.

SCATTERS	5-6	7	8	9	10-12	13-15
FREE GAMES	10	15	20	35	50	100

Free Games can be retriggered indefinitely.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win info per bet, got during simulations of 1,000,000,000 bets:

Highest win	762 x Total Bet
10th highest win	618 x Total Bet
100th highest win	499 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.

Please contact the Skywind support team if you want to make changes in the Coin values.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
